

The health of your patients is your top priority...

The health of your practice is ours!

Laser therapy is trusted by top chiropractors to grow their practices and generate new revenue.

Multi Radiance Medical's laser therapy technology is the first of its kind to combine the entire range of the therapeutic light spectrum and deliver its energy in a synergistic manner. The synchronization of the therapeutic wavelengths creates an optimal environment for reinforcing the effects of the individual wavelengths, thus creating the world's most advanced pain relieving modality.

25,000–50,000mW Super Pulsed Laser Power

More than most class IV lasers with a higher degree of safety

LaserStim™ with TARGET™ Technology

Exclusive interactive neurostimulation/laser device helps identify probable areas of treatment

4 Treatment Modes

Preset, laser sweep™, manual & patient program

Hands-Free Therapy

Available with unattended therapy option

MR4® SUPER PULSED LASER

The world's first
FDA cleared laser
therapy and E-Stim
device allows
for insurance
reimbursement

LaserStim™ with TARGET™ Technology
(Treatment Area Recognition and
Guidance Enhanced Technology)

“ Our partnership with Multi Radiance Medical will enable us to bring innovations to chiropractors around the world who are seeking solutions to chronic patient care issues. ”

MR4® Super Pulsed Laser Packages

Each Package Includes:

- Two Pair of Laser Goggles
- Operating Manual & User Guide
- Treatment Protocol Manual
- 2 Year Full Warranty with an Additional 3 Year Full Warranty as Optional

MR4® Laser (SE25)

This system includes the SE25 standard emitter. The ability to attach probes to the SE25 makes this emitter extremely versatile. The super pulsed laser system produces 25W of peak laser power.

- MR4® Control Unit
- SE25 Emitter (25,000mW)

\$3,995

MR4® LaserShower

The L550 LaserShower emitter greatly enhances any MR4® system, incorporating 4 super pulsed GaAs diodes. It's 20cm² active surface can cover 5 times more area than the standard SE25 emitter. The LaserShower also has a higher photonic density saturation, leading to shorter treatment times and the ability to cover broader areas.

- MR4® Control Unit
- L550 LaserShower (50,000mW)

\$5,795

MR4® LaserStim™

The LaserStim™ emitter is a true innovation: A hybrid probe providing both light therapy and electrical stimulation.

This FDA approved device provides superior outcomes. It is based on the SE25 emitter, with a single diode producing 25W of peak super pulsed power, while incorporating red LEDs, infrared emitting diodes and the static magnetic field.

- MR4® Control Unit
- LaserStim™ Emitter (25,000mW)

LaserStim™ with TARGET™ Technology (Treatment Area Recognition & Guidance Enhanced Technology)

\$6,495

MR4® ULTRA

The MR4® ULTRA package includes the LaserStim™ emitter and the L550 emitter. The L550 LaserShower emitter greatly enhances any MR4® system, incorporating 4 to 6 super pulsed GaAs diodes. The LaserStim™ provides both light therapy and electrical stimulation. The MR4® ULTRA is ideal for stimulating better systemic effects as well as treating the spine and large muscle groups.

- MR4® Control Unit
- LaserStim™ Emitter (25,000mW)
- L550 LaserShower (50,000mW)

\$8,395

MR4® packages are available with these innovative accessories:

\$189

\$329

1. Hands Free Therapy Armature

These easy-to-use tools allow for faster treatment. They easily attach to any cart or table.

2. Acupuncture & Muscle Trigger Probes

These probes allow you to treat smaller areas and target acupuncture points, expanding the versatility, efficacy and value of the MR4® laser.

3. Emitters

The MR4® is upgradeable and forward compatible with Multi Radiance Medical's line of laser emitters.
